Uma Urchin
Albert Abalone
Laura Lobster

Kelp forests are like tree forests except they are underwater. They are home to over 800 different types of animals.
Nancy the ocean biologist
Nancy the earth biologist

Kelp is found in many things we use every day.
Unscramble the letters to name just a few of them.

Answers: 1. tooth paste 2. band aid 3. lipstick
4. dog food 5. ice cream 6. chocolate syrup

Using the clues, connect the name of the kelp part to the correct word!

HOLDFAST □

Holds kelp to the rock reef.
(Hint: Looks like tree roots)

STIPE ○

Very flexible "trunk" capable of bending, not breaking in storms.

BLADE ☆

Looks like a "leaf" on a tree.
It catches sunlight.

AIR BLADDER △

Helps keep the kelp afloat so that it can get sunlight.
